### HOW DOES IT WORK?

Our Hangover drip is like a banana bag “on steroids” with double the vitamin content and micronutrients that also aid in detoxification, not just vitamin repletion.

- **B12 and B complex** help alleviate fatigue, mental fog, and more! While drinking alcohol, the liver prioritizes metabolizing alcohol over nutrients, making you severely nutrient deficient when you've had one too many. These deficiencies can weaken your immune system, and dehydration can cause you to feel weak and sore. B vitamins are cofactors in countless metabolic reactions that are used to make energy as well as maintain cellular functions.
- **Magnesium** helps relax the muscles and improves nervous system function to alleviate hangover symptoms.
- **Hydration and electrolytes** help replenish what is lost while drinking alcohol. When we drink alcohol, anti-diuretic hormone levels drop, causing frequent urination and resulting in dehydration.

## PREMIUM:

Replenish half of your total body fluid with 2 liters of pure hydration. This master detox clears free radicals and helps scrub your liver squeaky clean after the damage you've done. Plus, the included medical boosters of your choice will alleviate that gnarly headache, nausea, or inflammation.

## **B6 • B-COMPLEX • B-12 • Vitamin C • MAGNESIUM and Meds for symptoms**
